## Women\'s Hoops

---

I was able to catch 3/4 of the game at SMU Sunday. In re-reading the bio's of Stephen's recruits & transfers, I wouldn't be surprised to see all 6 move ahead of what we have now. On paper, the additions appear to be a notch above what was inherited. I walked in with Tina Slinker. Glad to see her still supporting the program. (well, at least her recruits)

Interesting that Slinker was there watching them. After so long with the team, I am sure it is strange to not be on the bench.

I think we have a couple of current players who are really pretty good, but for the most part I agree that it seems Coach Stephens is bringing in better talent than what we have now. I do think James will start next year though - Stephens seems really high on her.
