
Pray for Paducah

A Paducah JV girl basketball player was killed in a car wreck yesterday when the school van wrecked on the way to a basketball tournament. Others are in the hospital. This is very sad and keep them in your prayers.

I found this article, that implies that the coach should be prosecuted.

I was actually thinking that when you consider the 7th, 8th, 9th, JV, Varsity, A, B, C teams in the thousands of schools across the state it is a credit to the district drivers and the coaches who have to drive that this kind of thing rarely happens.

Another note, this was in a Suburban, which our school recently bought a few of to replace the old big vans that are now deemed unsafe. The safest thing is a school bus, but the big ones can be difficult to drive. The best option to me is a small school bus.
